Wabash Transformer Announces Twenty Four (24) New Transformer Models that are Audio/Video UL 6500 Recognized.

Wabash Transformer is a leading U.S. based manufacturer of Class 2, VDE, Audio/Video and power transformers. Our transformers are designed to deliver high isolation, clearance and creepage that meets or exceeds your audio/video critical requirements.

Wabash Transformer Corporation is pleased to announce an addition of twenty four (24) new transformer models that are UL6500 approved for audio, video, musical instrument apparatus for household, commercial and general use. Power ratings range from 2.5VA to 10VA. All transformers are UL, CSA and CE approved. Mounting includes printed circuit board (PCB), quick connect and lead wires.

Applications Include:

- Audio
- Video
- Phonographs
- Transducers
- Musical Instruments
- Amplifiers for sound and/or vision
- Speaker Systems
- Intercom Systems
- Control Systems
- Imaging apparatus

Benefits of Using Wabash Audio/Video UL Approved Transformers:

- Guaranteed high isolation between primary and secondary.
- Product protection from fire and electric shock.
- Simple input/output wiring methods.
- Compact design for saving space within customer application.
- Robust design and upgraded insulation system.
- Designed for product and consumer safety.

Features:

- VA Rating = 2.5-10VA
- Output range from 5-36 Volts.
- Inherent noise suppression.
- PC Mount, Chassis Mount with Quick Connects or Leads.
- Class F (155° C) insulation system (upgraded from standard Class B insulation)
- High safety and electrical/magnetic isolation.
- Flammability retardant rating UL94V0.
- 100% hipot tested at 4000V.
- 50/60 Hz standard.
- UL 6500 (E210114), CSA (E60065-00) and CE Recognized.
- ROHS Compliant.
- Custom designs available upon request.

Benefits of Using Wabash Transformer:

- Over 30 years of experience with power transformers.
- Leading the industry with cost effective solutions and drop in replacement to competitive brands.
- Competitive pricing.

- Global supply chain provides risk-free and reliable product(s) design and delivery.
- Supply chain programs (e.g. Just in Time, Consignment, KanBan) available.

Wabash Transformer has been producing quality custom and pre-designed transformers for over 30 years. Our Quality Policy is simple, and effective:

- A) Compliance to Requirements.
- B) Continual Improvement.
- C) Personal Pride in our Work.

Feel free to take advantage of our pre-designed models, or let us customize a transformer to your particular needs. Either way, you've come to the right place.
