Wabash Transformer is pleased to announce our newly designed website. Visit Wabash Transformer's website at [www.wabashtransformer.com](http://www.wabashtransformer.com). Our new website design is mobile friendly, the same website design seen on your desktop will be seen on your mobile device and tablet.

The screenshot shows the Wabash Transformer website homepage. At the top left is the company logo. To the right is a search bar with the text "Search Part No." and a "GO" button. Further right are social media icons for Facebook, LinkedIn, and YouTube, along with the phone number "(630) 628-9999". A blue navigation bar contains the following menu items: Home, About Us, Products, Cross Reference, Ordering Information, Industries Served, Request Quote / Sample, Library, Register, and Contact Us. Below the navigation bar are four product categories, each with an image and a caption: "Class 2 Transformers", "Standard Power Transformers", "Isolation Transformers", and "International Power Transformer". The main content area is divided into three columns. The left column is titled "Wabash Transformer - The Mark of Quality" and includes a photo of the factory and text describing the company's history and product range. The middle column is titled "Custom Design" and features an image of various transformers and text about the company's 40 years of experience. The right column is titled "Why Wabash Transformer?" and lists five key benefits: ease of doing business, zero defect rate, competitive pricing, on-time delivery, and short lead times. At the bottom of the main content area, there are two buttons: "For RoHS Compliant Products" and "To Download product Catalog". The footer of the website contains a blue bar with the following links: Home, Refer a Friend, Sitemap, Privacy Policy, Terms of Use, PowerVolt, Inc., Ensign Corp, and Contact Us.
